

Monday	Objective: TLW draw a still life of white object using sighting techniques and 2 point perspective rules
	Activities: The teacher will review the rules of perspective, especially overlapping, placement, and linear perspective and how they will be applied in the drawing of a complex still life. The students will start to draw a still life of white object using sighting techniques and 2 point perspective rules.
	Materials: White objects for still life, especially cones, cylinders, cubes, and spheres. Spot lights, paper 12 x 18, ebony pencils or charcoal, erasers.
Tuesday	Objective: TLW continue to draw their still life of white objects using sighting techniques and 2 point perspective rules.
	Activities: Students will continue to draw the still life, getting it ready for shading when they return from the Thanksgiving Holiday
	Materials: White objects for still life, especially cones, cylinders, cubes, and spheres. Spot lights, paper 12 x 18, ebony pencils or charcoal, erasers.
